BY AND BETWEEN
KING COUNTY
AND**

The King County Homeless Management Information System (“HMIS”) is a shared database and software application that confidentially collects, uses, and shares client-level information related to homelessness in King County. On behalf of the Seattle/King County Continuum of Care (“CoC”), HMIS is administered by King County (“County”) in a software application called Clarity Human Services (“Clarity”), a product of Bitfocus, Inc. (“Bitfocus”). The County has also contracted with Bitfocus to serve as the System Administrator for the HMIS.

This Partner Agency Privacy and Data Sharing Agreement (the “Agreement”), dated _____, (the “Effective Date”), is entered into by and between the County and _____ (“Partner Agency,” or “Agency”) (collectively “the Parties”), in order to further clarify the rights and responsibilities of the Parties regarding access to and use of the HMIS data by the Partner Agency.

I. Introduction

- A. Client information is collected in the HMIS, and shared with housing and services providers (each, a “Partner Agency,” and collectively, the “Partner Agencies”), which include community based organizations and government agencies. Partner Agencies use the information in HMIS to: improve housing and services quality; identify patterns and monitor trends over time; conduct needs assessments and prioritize services for certain homeless and low-income subpopulations; enhance inter-agency coordination; and monitor and report on the delivery, impact, and quality of housing and services.
- B. Subject to the direction of the County, in its role as HMIS Lead, Bitfocus will act as the HMIS System Administrator and Software as a Service (“SaaS”) provider, and will assume responsibility for overall project administration; hosting of the HMIS technical infrastructure; and restricting or allowing access to the HMIS to the Partner Agencies in accordance with the direction of the County.

II. Confidentiality

A. The Agency will comply with all applicable Federal and State confidentiality laws and regulations that protect client records, and the Agency will only enter information into the HMIS and/or release confidential client records to authorized agents and representatives and with informed consent in a writing signed by the client, or the client's guardian, unless otherwise provided for in the regulations or laws. "Client" refers to anyone who receives services from the Agency. "Guardian" refers to one legally in charge of the affairs of a minor or of a person deemed incompetent. Future references in this Agreement to a "client" include reference to any "guardians" of a client.

Only the standard, County-issued Client Consent to Data Collection and Release of Information form may be used. All documentation must be provided to the County within ten (10) days upon request.
 - H. If a client does not consent in writing to the inclusion of basic identifying client information into HMIS then the identifying information cannot be entered into the HMIS. Instead, the Agency will follow King County's

- I. The Agency will use the Client Consent to Data Collection and Release of Information form, describing how client information may be collected, used, and released by the County and the CoC in the administration of the HMIS. The County, Bitfocus or their contractors may conduct periodic audits to monitor compliance with informed consent standards. HMIS; and be responsible for ensuring compliance by its officers, employees, agents, and subcontractors with the confidentiality provisions hereof. Should confidential and/or legally protected County Data be divulged to unauthorized third parties, Agency shall be responsible for complying with all applicable federal and state laws and regulations and shall be solely responsible for the costs associated with any and all activities and actions required.
