

## King County HMIS Training & User Support

In collaboration with King County and other key partners, Bitfocus, Inc. provides current information and training about best practices for using Clarity Human Services software and relevant updates to meet funder expectations. Ongoing training helps to ensure data accuracy, user satisfaction, and high quality client services.

### Topic-Specific & Special Initiative Trainings

The King County System Administration team provides several custom trainings for users and key partners throughout the year, focusing on current needs and priorities. Trainings are often offered in a dual-audience format (in-person and online simultaneously) and recorded for future viewing. HMIS users are notified of training and support opportunities in advance by email and via the monthly e-newsletter.

**The calendar for the current training year is included at the end of this document.** Past training topics have included:

- Protecting Client Privacy
- Reviewing and Improving Data Quality
- Anatomy of the APR
- Using HMIS for Coordinated Entry Process
- HMIS and Outreach Projects

### Quarterly Agency Forums

All agencies participating in HMIS must identify one staff person as the “HMIS Agency Lead” who acts as the primary liaison between the agency and the King County HMIS System Administration team. The Agency Lead manages user accounts, project setup requests, in-house support of internal HMIS users. The King County System Administration team hosts quarterly forums to bring all HMIS Agency Leads together in order to discuss current issues and/or see demonstrations of specific features. Forum agendas may include:

- Updates on current initiatives and HUD HMIS data standards
- Review of features or new software functionality
- Peer-to-peer troubleshooting of HMIS use and data quality

### Online HMIS Office Hours

At least once a month, HMIS users of all levels are invited to attend online “office hours” as an opportunity to get their questions answered, see demos of the software features, and participate in discussions with other users and the System Administration team around solutions to common challenges. In addition, each month focuses on a specific theme such as *troubleshooting client enrollments* or *running key reports*.

### Coordinated Entry for All Trainings

Coordinated Entry for All (CEA) trainings and technical assistance are provided in collaboration with the King County CEA program to support Assessors, Referral Specialists, and Housing Providers in using the Clarity Human Services Coordinated Entry Module and HMIS to complete assessments and manage the housing referral process. CEA trainings are included on the training calendar below and are detailed on the [King County CEA website](#).

### New Users/Refresher General Training

Bitfocus, Inc. offers a pre-recorded online training to new users which provides a comprehensive overview of the Clarity Human Services software and includes short quizzes to reinforce key concepts. This training is mandatory for all new users, before the user is provided access to the system. This training can also be a useful refresher for any HMIS user and can be accessed as needed. Users can find more information on the website here: <http://kingcounty.hmis.cc/training/clarify-general-training/>

### Technical Assistance

The King County System Administration team provides 1:1 technical assistance to individual HMIS users and/or on-site refresher trainings to staff groups at participating agencies. These sessions are scheduled by request and are initiated by agencies, funders and/or King County.

## Annual Security and Privacy Training

Each September, King County HMIS users are required to complete an annual Security and Privacy Training. The pre-recorded training and quiz take approximately 30 minutes to complete. Users must complete the entire training and online quiz to meet the training requirement. Each agency's Security Officer is also required to view an additional 15-minute pre-recorded training.

## Monthly Newsletter | Online Support and Resources

### King County HMIS E-News

The King County System Administration team produces a monthly e-newsletter that is distributed to all HMIS users using the email addresses affiliated with the user accounts in Clarity Human Services. In addition, other agency staff can opt-in to receive the newsletter by subscribing via the [King County HMIS website](#). The e-newsletter offers further user support by providing updates on helpful tips, system features, reports, and upcoming deadlines for HMIS reporting to HUD and other funders.

### Online Support and Resources

The King County System Administration team, Bitfocus, Inc., and the CEA program have developed many online resources and reference guides for HMIS users. Users can access online resources, manuals, report guides, forms, and FAQs via the following websites:

- <http://kingcounty.hmis.cc/> - information specific to King County HMIS (Forms & Guides tab)
- <http://get.clarityhs.help> - general Clarity Human Services information
- <https://kingcounty.gov/cea> - CEA webpage of kingcounty.gov

### King County HMIS Helpdesk

All King County HMIS users are welcome to contact the Helpdesk with issues, questions and/or requests. Some requests may need approval from an agency's HMIS Agency Lead or by the King County System Administrator before the Helpdesk can proceed.

- Open a Help Desk Ticket by emailing: [kcsupport@bitfocus.com](mailto:kcsupport@bitfocus.com)
- Speak to the Help Desk by calling: **206.444-4001 x2**
- Instant message with Help Desk by visiting the **Chat with Us** area of the [King County HMIS website](#)
